

BONNIE WALKER

Bonnie Walker has held a variety of sales roles in large enterprises and emerging technology companies for the past 25 years.

She is a champion for good commerce and serves her clients by focusing on business value and driving strategic objectives.

Committed to supporting the success of others, with her keen insight, attention to detail and passion for strong execution; she consistently delivers meaningful business outcomes.

Bonnie has a commanding grasp of technology fundamentals and a natural aptitude for logic and root cause analysis. With this she excels in process improvement initiatives specifically in the field of enterprise software, application development, project requirements definition and business case development. Having worked alongside companies like IBM, Sun Microsystems, Microsoft, McAfee, 3M/Imation, IAG Consulting and Corporate Software with top tier clients like Bell Canada, BMO Financial Group, PWC, Scotiabank, Franklin Templeton and more, she's driven in excess of \$100MM in software and services sales in her career. With this expertise, she pivoted into the world of consulting and advisory and ultimately her focus centered on the challenges facing companies trying to raise capital.

Today Bonnie works with a powerful private wealth lending platform promoting an unparalleled set of finance programs that are available to companies and non-profits worldwide. weLLcome capital is an advocate for the circulation of capital and partners with leaders in the fields of private wholesale lending, cryptocurrency and philanthropy. Together we are disrupting both the debt capital market and the evolution of charitable giving and fundraising by delivering a very unique set of funding options.
