

Film Financing @ Wholesale Rates

Are you looking to fund your next film, slate or television project?

Let us introduce you to these innovative film financing programs. Our private lending group has a dedicated entertainment division that can fund your project using either the **4X Loan** or the **1X Lending Program**. To qualify for the **4X Loan** the borrower needs to have already raised 20% of the loan amount in cash or **crypto** and the minimum deposit is equivalent to \$10M USD after discounting. With the 20% of what you need already raised, this program can provide you with a credit facility that is typically four times your deposit at a wholesale interest rate of 3.5%. Your initial funds are 100% secure in your own account and your funds are NOT collateral for the loan.

Film financing with the **1X Lending Program** requires a minimum equivalent to €1M EUR to enter the program. Crypto is an option, only top 5 currencies at 80% LTV. Follow above links for program details.

Regarding the readiness of the project itself; the production elements need to be established and a fully developed business plan already in place. Your project doesn't necessarily have to be ready to produce immediately, but it should basically be "ready to go". If you only have a script but no budget or production plan, then you are not yet ready for funding.

This wholesale program has already funded hundreds of entertainment projects globally.

- **Loan triggered by initial funds**
- **Your money is secure**
- **Different minimums apply to each program**
- **Interest Only 3.5% 48 month term**
- **No PG or Corporate Guarantees**
- **Any business can qualify. Credit scores are not relevant**
- **NO prepayment penalties and flexible repayment options**
- **Collateral for the 4X loan is a lien on the project itself**
